

Business Managers Report for June 2024

Members available for work: Plumbers 37, Fitters-19 Apprentices-42 HVAC-3
Members Traveled Out-24

Work has picked up slowly, DSI and Performance Mech. have been picking up a few members the last few weeks. The contractors I have spoken with think by the end of July a significant number of members should be back to work again, a lot of the jobs are coming out of the ground right now.

Elections are here, on June 17, 2024, from 5:00 pm to 7:30 pm voting will be taking place at the Hall on 3630 Belgium Lane, this is your **Local and your vote counts**, I hope to see more people showing up to vote, members tell me their vote doesn't matter, I remember an election years ago where the manager won by only a few votes so get active and come down to vote.

There will be a \$1.25 per hour increase starting July 1, 2024, for journeymen and above, the health insurance hourly rate will drop by 0.10 cents an hour bringing it to \$5.73 an hour, we have 42 months in reserve at this time. This is the last year of this contract.

We have a Joint Industry board meeting scheduled with the MCA on June 5, 2024; we haven't had one in a long time so it is good to start our quarterly meetings again.

Brother Glenn Floyd Graham passed away on May 15, 2024, just shy of his 69th Birthday he was also just a few months shy of being a 50 year member. He will be missed.

Fraternally,

Mark Potter

Business Manager
