

## **Multi-Craft Core Curriculum Student Code of Conduct**

The multi-craft core curriculum, hereafter referred to as the “MC3”, is a program designed to give a broad overview and introduction to the construction industry and provide opportunity for students to retain gainful employment in an entry level position with a signatory contractor within the building trades.

Due to the accelerated nature of the MC3, attendance to all classes is mandatory. However, one absence will be allowed throughout the duration of the class, as long as it is not on one of the certification days. Each student is expected to arrive at class on time and ready to learn. A student will be considered “late” 15 minutes after the start of class each day. If a student is late more than 3 times it will be considered an absence. Upon the second absence the student will self-terminate.

Most MC3 training will take place in the classroom. However, due to safety concerns and expected tours of other facilities, students will be required to wear work pants and closed toe shoes to all classes. Failure to adhere to this dress code will result in a tardy, with the student given the option to change. If the student does not return, they will be counted absent.

The MC3 is designed for inclusion of all available workers, no matter race, creed, culture, religion, gender or sexual orientation. There will be zero tolerance for any harassment, either student to student, teacher to student, or student to teacher. Violation of the anti-harassment policy will result in expulsion from the class.

Each student will be required to pass a random drug screening over the duration of the class. Failure to pass the drug screening will result in expulsion from the class.

**I have read and understand this Code of Conduct and agree to abide by the rules set forth and understand the consequences for any violation.**
